## Open Unapproved Apps

1. To launch an app that hasn't been approved, right-click on it and choose Open.

You'll see an alert about malware and contacting the developer.

2. Click to open the app. Once you've opened it once, it'll never bother you about that app again.

## Catalina on Old Computers

**macOS Catalina Patcher** — run macOS Catalina on an Unsupported Mac

- <https://dosdude1.com/catalina/>
- <https://tinyurl.com/ttudzcj> (video)

If you decide to try this:

1. Make a complete **backup** first!
2. **You are on your own.** I will not be able to help!!
